## CDA 2010 Annual Conference

October 2<sup>nd</sup> to 7<sup>th</sup>, 2010

The Sheraton on the Falls Hotel  
Niagara Falls, Ontario

### *Call for Papers*

## Conference Theme and Topics

The organizing committee invites submission of technical papers from owners, consultants, regulators and academia outlining original contributions in the following areas, as they relate to dam safety and dam safety management:

- Applications of the CDA Guidelines
- Management of Dam Safety
- Eco-smart products and technologies
- Numerical Modeling and Simulations
- Remote controls / satellite / remote sensing / GIS applications
- Flow Control Equipment
- Instrumentation technologies for ground and structural monitoring
- Environmental Assessments and Stakeholder Consultations
- Public Safety Around Dams
- Emergency Preparedness and Mitigation
- Risk Assessment and Management
- Climate Change and Dam Safety
- Tailings dam management and closure
- Dam Decommissioning

## Abstract Submission

Case studies and case histories are actively solicited. Papers featuring innovative analyses, techniques and solutions, novel technologies, as well as research work related to dam safety and dam safety management are strongly encouraged.

Abstracts of up to a maximum of 300 words in length, in either English or French, must be submitted by E-mail (MS Word or PDF format files) to:

Allan Kirkham, P.Eng  
Technical Program Chair, CDA 2010  
E-mail: [technicalprogram2010@cda.ca](mailto:technicalprogram2010@cda.ca)

Visit us at [www.cda.ca](http://www.cda.ca) for more info.

### **Submission Deadlines:**

**Abstracts: January 21<sup>st</sup>, 2010**

**Notification of paper acceptance:  
February 15<sup>th</sup>, 2010**

**Final paper manuscript submission:  
June 30<sup>th</sup>, 2010**
